What We Treat

Every disease & Suffering has a definite root cause. We do not treat diseases or sufferings (the symptoms & shadow), we treat the exact hidden root cause and the effect (disease & Suffering) starts disappearing as per the stages of your disease.

We fight the cause - not the symptoms.

Physical:- We work on all so called dreadful & degenerative chronic diseases; right from the common cold to cancer (*all diseases are reversible except when at an extremely advanced stage*).

Mental:- All stress, fears, phobias, negative thoughts, habits, depression, loneliness, etc.

Emotional:- All relationship issues related to parents, spouse, children, boss, employee or personal issues.

Psychic:- All problems related to negative forces, psychic attack (personal or external), black magic or environmental.

Environmental:- Negative energies related to your house, office, factory, radiation, geo-pathic stress, vastu defects, objects etc.

Spiritual:- Problems related to meditation, kundalini, abnormal symptoms, no results with various sadhnas, retarded progress etc.

Karmic:- Problems related to relationships, poverty, miserable life, enemies, losses, negative son, wife, husband, neighbours, friends etc. & physical disorders have past life karmic connections.

How We Treat

(Treatment Modalities)

Why Improvement is definite at any stage.

We correct...

Your mind:- Your negative beliefs, concepts, thoughts, emotions, fears, stress and depression. By various powerful meditations, counseling and hypnotherapy.

Your Nutrition:- Your disease causing unhealthy nutritional habits; adding corrective & regenerative nutritional programme.

Your Lifestyle:- Correcting your day to day-moment to moment negative lifestyles and habits related to sleep, eating, driving, sitting posture, indoor-outdoor activities, etc.

Your exercise:- We add corrective remedial exercise specifically Yoga, Pranayama, Active Sports, Dance and Walking Exercises.

Reiki:- A most powerful universal life giving energy given through palm (touch) and distance (telepathically) to increase and balance your vital force which facilitates rapid healing & regeneration.

Past Life Regression Therapy:- Almost all of our problems are connected to past life karma. Past life regression resolves all issues related to disease, finance and relationships.

Acupressure and Acupuncture:- A highly effective therapy, acupressure & acupuncture has gained worldwide recognition as an instant and fast relief therapy. It corrects and stimulates corresponding zones (Points) to re-establish a smooth flow of Prana Energy (Meridians).

Hypnotherapy:- Hypnotherapy is a well recognized science to re-programme the subconscious, change habits, overcome weaknesses, fears, concepts, phobias and abnormal symptoms giving a strong boost to healing.

Meditation:- It is a universally accepted fact that meditation releases negative suppressed emotions, strengthens the nervous system, develops strong positivity and happiness, raising the soul to higher dimensions.

Colon Hydro Therapy:- Toxic bowels deposition is the mother of all disease. Colon Hydro Therapy is a modern electronic gadget which cleans the entire colon to create a clean and healthy intestinal environment which cures the disease rapidly.

Mental Cleansing Meditation:- A catharsis process to reduce (point out) all the yearly gathered suppressed, unexpressed emotions, anger, frustrations, stress etc in the subconscious, to experience a remarkable change in your nature, behavior and work.

Alkaline Water:- High acidosis (*ph of the blood*) is disease & degeneration, whereas alkalinity is regeneration. Alkaline water yields a healthy & strong vital force. Alkaline water is also high in anti-oxidants. It hydrates your cells supplying more oxygen to the body which facilitates a faster healing and a robust health.
